To download Facebook videos in MP4 without leaving the website install "SaveFrom.Net Helper". It is a free browser extension that helps you to save preferred videos without leaving the website. Our Facebook video downloader extension adds additional functionality to your web browser, allowing to download videos from FB while you watch them. Install SaveFrom.net Helper by clicking here: [Install](#) You can download video from FB to your computer online while a video is running. Just make sure the browser extension "SaveFrom.Net Helper" is installed. While watching a video you want to save, move the mouse above the video and a green button will appear. When you see it, click on the arrow, and wait. In 2 seconds the Facebook video downloader extension will search for available formats and quality options you will be able to choose from. The same method works when you are scrolling down the wall. Install SaveFrom.net Helper by clicking here: [Install](#) 1. Copy the video URL Copy the video URL from the browser's address bar to the clipboard, or right-click on the video and choose it from the contextual menu. Then "Copy the URL". 2. Paste the URL into the input field on SaveFrom.Net Go back to the browser tab, having SaveFrom.net Facebook video download window already opened, and paste the link into the input field. The Facebook video saving process usually runs automatically, if not, press the search button. 3. Choose the desired quality and click on the download button Before using our Facebook video downloader app, you can choose from available quality and format options. Just click on the drop-down list before clicking on the download button, and select the preferred one from the list. If you need to download Facebook video that is private, you have to install SaveFrom.Net Helper browser extension. Usually, only if you can see someone's private video you can download it. So, via the website, you cannot do it, because of the privacy settings that restrict access from outside. Using SaveFrom.net Helper, you can download private videos right from the Facebook page you are in. Remember, you should respect the copyrights of the Facebook video you want to download on pc, if you download someone's video that is protected by the law, you are the only one responsible for that action. Think twice before doing it! The default path is the "Download" folder of your operating system. Mac OS, Windows, and Linux always save files in the default folder. Popular browsers, like Google Chrome, Mozilla Firefox, Opera, Safari, Microsoft Edge, and Brave browser, always use default download folder, if you did not change it in the browser's settings. You can start FB video download on pc or android phone easily, just choose one of the two methods you can see above the FAQ section. If the live video streaming is not finished, you cannot download it. You need to wait until the live streaming stops and is stored on Facebook. Only when it is saved, it will be available for downloading. Usually, it happens infrequently. If you try to download Facebook videos and it opens in a new tab and starts playing, do not worry. Just right click and choose the "Save As" option from the contextual menu. The downloading process will start at once. No!
