Pokemon go iphone spoofer. Pokemon go iphone spoof reddit. Pokemon go iphone spoof 2022. Pokemon go iphone spoof free. Pokemon go iphone spoof 2021. Pokemon go iphone spoof 2022 reddit. Pokemon go iphone spoof no jailbreak. Pokemon go iphone spoof app.

Pokemon GO is the most popular location-based game where trainers have to walk the streets to catch and hatch Pokemon. However, players may not have enough time or energy to spend all day walking around. This is why so many players use Pokemon GO location spoofer to enhance their gaming experience. Please note that falsifying your location may result in your account being suspended. Fortunately, this spoof will help you choose the safest Pokemon GO spoofer for Android and iOS so you can roam freely and catch legendary Pokemon. Read more! Top 3 Pokemon GO Spoofs for Android or iOS However, these apps have different requirements. Some apps may require you to use a rooted phone, which means you need privileged access to your Android device. In any case, when it comes to location spoofing apps, simplicity and ease of use should be the priority. We will be covering 3 different Pokemon GO spoof apps: iMoveGo, PGSharp, and Small Patcher. As you can see in the table below, there are several different aspects to consider. Compatible with Pokemon GO Spoofer Uptime Root Secure Required iMoveGo iOS & Android 3 minutes No Yes PGSharp Android 30 minutes No No Small Android Patcher Not sure Yes Not sure 1. Pokemon GO Spoofer iMoveGo [for Android and iOS] iMoveGo is a spoofing app GPS that works from your computer and changes your GPS location on any device. It is also the only safe location spoofing method that works on the official Pokemon GO app and can be used on the latest Android and iOS versions as well. Android 13 and iOS 16 are now fully supported! Pokemon GO Spoofer Video Guide iOS and Android: Step 1: Download the software and connect your device to your computer using a cable or Wi-Fi connection. Once connected, select your device from the list. Step 2: If you're using an iPhone, go straight to Step 3. If you're an Android user, follow these stepsOn-screen instructions to enable USB debugging. Then select the Pokemon GO game mode. (Use social mode for other apps like Snapchat) Step 3. The map will then be loaded. To set a fixed fake location, choose teleportation mode. Then go to the search bar in the upper left corner and type any destination in the world. You can also try using GPS coordinates. Click Move to confirm the new location. Get moving! You have now successfully teleported to your desired destination and can start moving by selecting the first option - the GPS joystick. To control your movement, use the keyboard for easy navigation, or you can create a custom route in 2 waypoint mode or multi waypoint mode. Our Verdict To fake your location in Pokemon GO, there's no better tool for collecting Pokemon safely than iMoveGo. You don't need to root your phone to use all the features of this tool. It connects to any iOS or Android device so you can safely play with the official Pokemon GO app instead of a modded version. 2. Pokémon GO Hack PGSharp [Android] PGSharp is another Pokemon GO hack app that you install as an APK on your phone. Although PGSharp offers various features in addition to location spoofing, using them is a bit risky. If you want to test PGSharp, you should use an alternate account to avoid disabling your main account. PGSharp only allows you to login with Facebook, not Google. Before you start, please note that you need to uninstall the original Pokemon GO first. Then follow the steps below to install PGSharp. Step 1. Go to PGSharp official website and download the app. Step 2. Find the beta key for the program by visiting the official PGSharp website, scrolling to the Sign Up Now button and get a free trial. You must also create a password to log in. Step 3. Copy and paste your credentials from your PTC Pokemon GO account and the beta key you received after signing up for the PGSharp free trial. Step 4the program is ready to be used on your android device. If the free trial is sold out when you try to verify a \$0.00 payment, the servers are down or under maintenance. Wait a few minutes and you can probably try again. Pros and cons of using PGSharp Pros GPS location spoofing Various other hacking features Mobile apps Disadvantages Risk of blocking your main account. Random server crashes prevent you from logging in. Sometimes this requires a dubious activation key. Only for Android devices. 3. Small Patcher for Pokemon GO [Root Required] For tech-savvy users, Small Patcher can help you fake your location in Pokemon GO, although it can take a lot of time and effort. In this case, Small Patcher requires you to have a rooted Android device, which means you need full privileged access to make changes. First enable developer mode by pressing 7 times the build number in the Software Information section. Then enable USB debugging in your device's developer options. Then download Small Patcher from the community. Then connect your device to a computer that must have at least 3 GB of RAM. You may also receive a notification asking you to allow USB connection on your phone. Now run "SmallPatcher.exe" on your computer. At this point, you need to browse through the patches to see which ones you need. You must select the Damage Locations patch for Pokemon GO. When you're ready, click ADB Patch to begin the process of downloading patches to your phone. Then the Magisk module will be created. From there, you can install the Magisk module and enable the Small Patcher module in Magisk. In general, this solution is quite difficult to implement. It is recommended that only an experienced user with a lot of patience try this method. Tip 1: Avoid getting banned when using Pokemon GO Spoofer for Android As you already know, Niantic only supports outdoor games. Therefore, Pokemon GO spoofing apps should be accepted.5 measures to avoid getting your account banned and losing all your game progress. Please note that: 1. You are limited to 100 Mons and 1000 PokéStops per day with a limit of 3500 PokéStops per week. We know you want to collect as much as possible, but don't go crazy. 2. Observe the in-game charge time, for example leave 2 hours between sniper shots. 3. Modified iOS devices may be banned. 4. Make sure the GPS spoofer altitude and speed are reasonable. Pokemon GO becomes suspicious if you are at 2000 feet or traveling at 3000 mph! 5. When you go out to catch Pokemon, don't pretend any ridiculously complicated routes. The temptation may exist, but it is usually not necessary to cross continents in one day. Tip #2. The cooldown rule for any fake Pokemon GO app A soft ban means that when you teleport, there will always be a period of time where you won't be able to catch Pokémon, spin PokéStops, and participate in raids to release them for a maximum of 2 hours. that . For example, if I catch a pokemon in the US a minute ago and teleport to somewhere like Tokyo, I have to wait 2 hours to catch the pokemon there, or I can just go back to where I came from and come back. catch. However, if I haven't caught a pokemon, caught a pokemon, etc., or done any donation activities in the last 2 hours in the US and teleported to Tokyo, I can catch Pokemon there. Total waiting time distance Total waiting time distance 1 km 1 minute 125 km 33 minutes 2 km 1 minute 150 km 36 minutes 4 km 2 minutes 180 km 39 minutes 10 km 8 minutes 200 km 42 minutes 15 km 11 minutes 300 km 50 minutes 20 km 13 minutes 400 km 56 minutes 25 km 15 minutes 500 km 64 minutes 30 km 18 minutes 600 km 72 minutes 40 km 22 minutes 700 km 80 minutes 45 km 23 minutes 800 km 86 minutes 60 km 25 minutes 1000 minutes 827 minutes 1250 km 118 minutes 100 km 30 minutes 1266+ km 120+ minutes The best way to fake your location in Pokémon GO Unlike other methods that have many limitations or require knowledge, our recommended pick iMoveGo offers the easiest solution for you to collect pokemon quickly without getting banned. Just plug in your device and move at your own pace without interruption. Download Pokemon GO Spoofer iMoveGo now! Use the free trial version to test the features. Don't miss the legendary Pokemon! Download Now Safe Download Download Now Safe Download Also Read: Best Places To Cheat In Pokemon GO Pokemon Go was released in 2016 and this clever game is a huge step into the world of artificial intelligence and virtual reality that none of us even think about. try it out. iMyFone AnyTo iMyFone AnyTo can spoof GPS location with one click and spoof location that no one knows in geo apps. Try it now for free Select your device/system type The idea of finding Pokemon around you, but only through the eye of a camera, is a big deal. How scary and funny at the same time, right? So let us give you some tips on the best places to spoof in Pokemon GO 2022 so you can collect as many as possible. Part 1: Best Locations/Coordinates to Spoof in Pokemon GO 2022 1. Pier 39, San Francisco, USA 2. Millennium Park, Chicago, USA 3. Santa Monica Pier, Los Angeles, USA 4. Disneyland, Anaheim, USA 5. Big Ben, London, United Kingdom 6. Circular Quay, Sydney, Australia 7. Colosseum, Rome, Italy 8. Shibuya, Tokyo, Japan 9. Lumpini Park, Bangkok, Thailand 10. Zoo Negara, Kuala Lumpur, Malaysia 1 Pier 39 , San Francisco, USA Pier 39 Coordinates: 37.809326, -122.409981 San Francisco is just a great place to find lots of Pokemon. While they will be prevalent in the area, you still have a decent chance of finding a handful of Pokemon in the San Francisco area. The iconic Pier 39 areaThere are so many Pokestops in San Francisco that it's a great place to find supplies and pick them up along the way. Since it's right on the water, you're lucky enough to catch some pretty rare water-type Pokemon. Some other areas in cities are also rich with Pokemon and their stops: So if you're in this city, it's a great start to explore the city with its beautiful land and water and find some rare Pokemon along the way. 2 Millennium Park, Chicago, USA Millennium Park coordinates: 41.882702, -87.619392 A city where you can find some famous Chicago attractions. It's good to get you through the day, and it's great for finding a handful of Pokemon. When you play Pokemon Go in Chicago's Millennium Park, you can collect tons of Pokemon along the way. You can also take a great photo by clicking The Bean, Navy Pier and Willis Tower. These places are known to yield the best and rarest Pokemon many times over. Stops, decoys and gyms can also be found in most areas. 3 Santa Monica Pier, Los Angeles, USA Santa Monica Pier Coordinates: 34.010090, -118.496948 Santa Monica Pier in Los Angeles brings so many cool and rare Pokemon closer to catch in the USA. This is a well-known place where many Pokemon are found. Rare Pokemon can be found in this area, including Gloom, Dratini, Squirtle, and Slowpoke. Here you can easily find Pokemon that are not normally found. Aquatic species such as Goldeneen and Magikarp do well here. In addition to Santa Monica, you can also go to Beverly Hills. 4 Disneyland, Anaheim, USA Anaheim Disneyland coordinates: 33.812511, -117.918976 In a world full of animation and fun, there are also many Pokémon. Disneyland in Anaheim is a place where many people can play, so you can easily find Pokémon yourself. With so many people, the baits are often easyaround. And if you're looking for a cool place to fight, Sleeping Beauty Castle can serve that purpose exactly as it is. 5 Big Ben, London, United Kingdom Big Ben coordinates: 51.510357, -0.116773 London is another great opportunity for Pokémon hunting. There are also many monuments here. Big Ben is a gym where you can find some Pokémon. So if you're a regular at the gym, this is where you can look for your next Pokemon. There are many Pokemon stops in London as this ancient city has many attractions. Being in the center of town means you can stock up on supplies, and you always have an opportunity to explore new, old locations that are fun to play with. 6 Circular Quay, Sydney, Australia Circular Quay coordinates: -33.865143, 151.209900 There are many opportunities to catch Pokemon in this area. Circular Quay in Sydney is famous for its Pokémon. This is the area in front of the water intakes. So you may be lucky enough to find rare aquatic species. There's also a gym nearby, so there are plenty of opportunities to find some of the best Pokemon. 7 Colosseum, Rome, Italy Colosseum coordinates: 41.890251, 12.492373 In this beautiful place, you can not only admire the wonderful and scenic views of ancient architecture, but also meet Pokémon like Squirtle, Pikachu, and Oddish. The Roman Coliseum is just full of Pokémon and everyone, young and old, is going nuts. This place will provide you with so many Pokemon. 8 Shibuya, Tokyo, Japan Shibuya Coordinates: 35.685001, 139.710007 No list would be complete without mentioning Tokyo as the best place to cheat Pokémon Go. This town is just a great place to catch Pokemon. There are so many places to play here that the possibilities can be overwhelming. Many popular areas of the city offer Pokestops, gyms, and more. In that case, Shibuya is a great place to find great Pokemon. 9 Lumpini Park, Bangkok, Thailand Lumpini Park13.730556, 100.541664 Why not find some of the best Pokémon at this beautiful and lush Lumpini Park in Bangkok. You may need a lot of PokéStops in this park as well as a gym downtown. It's also the best place to panic Pokemon Go. 10 Zoo Negara, Kuala Lumpur, Malaysia Zoo Negara Coordinates: 3.207111, 101.756729 Like all other great places to find Pokemon, Zoo Negara is also perfect for finding the best Pokemon. In this place you will find many gyms and Pokemonstops. It will be a great place to relax after a busy and tiring day.
