paraphrased text hereTo access the Treehouse in front of the Blue House, you'll need to use the trampoline behind the Green House as a makeshift staircase to reach the roof and then jump onto the Treehouse. Once inside, interact with the drawing of the robot on the wall to open up a secret compartment containing the robot's arm.Next, attach this arm to the nearby robot sculpture and manipulate its arms until they are in the same position as the original drawing. This will activate the robot's eyes, opening another hidden compartment containing an object that needs to be attached to the train mechanism on the table.By activating the train, you'll receive the Scissors, which can now be picked up. The process involves some puzzle-solving and creativity with the trampoline and train mechanics.As for playing Hello Neighbor 2 on your mobile device, the game requires a significant amount of processing power.
