This time, select "Create AAC" Version" to create a copy of your song in AAC format. Locate the song in your Music library or playlist. If you don't see this option, you need to change your iTunes preferences (see the next step). Scroll down and touch "Sounds." Scroll down again and touch "Ringtone." You can now select your custom ringtone from the list of available options. Click "Apply" and then "Sync" After the sync is completed, close iTunes and disconnect the USB cable. i Image courtesy of Apple Right-click your original song file -- the one that still shows the full time length -- and select "Get Info" again. i Image courtesy of Apple Start iTunes. i Image courtesy of Apple Launch "Settings" from the iPhone's home screen. Then select "Preferences" from the Edit menu and the click "Import Settings" button on the "General" tab. i Image courtesy of Apple Connect your iPhone to the computer using its USB cable. i Image courtesy of Apple Right-click the 30-second AAC version of your song in iTunes and select "Open in Windows Explorer." Right-click the file in Windows Explorer and select "Rename." Highlight the ".mp3" extension and replace it with the ".m4r" file extension used for ringtones. i Image courtesy of Apple Drag a music file into the iTunes Music library, or press "Ctrl-O" to import it. Press "Enter." i Image courtesy of Apple Click the menu button in the upper left corner iTunes, which should say "Music" and select "Tones." Your new ringtone appears on this page, indicating that you changed the file extension correctly. Click the "Tones" tab and then click the "Sync Tones" button. Right-click the file name and select "Get Info." i Image courtesy of Apple Click the "Options" tab in the window that opens. Highlight and delete the Start Time and Stop Time, then click "OK." This returns your original song file to its normal length. Select your iPhone when it appears in the top right of the iTunes window. If prompted, sign in using the same Apple ID and password you use for your iPhone. i Image courtesy of Apple If you don't have the option to create an AAC version of a song, press "Ctrl-B" to reveal the iTunes Menu bar. Ringtones have to be 30 seconds or less, so you'll have to pick which part of the song you want to use. All you have to do is create a copy of your favorite track and then tweak it a bit to make it into a ringtone your iPhone can use. i Image courtesy of Apple Open the Windows Control Panel, select "Appearance and Personalization," then click "Folder Options." Click the "View" tab and then clear the check box beside "Hide extensions for known file types." You need to be able to see the song's file extension to make make it a ringtone file.
